GLOSSARY OF TERMS

GLOSSARY

This glossary contains definitions of terms used in the budget, and not specifically defined elsewhere, and such additional terms as seem necessary to provide a common understanding concerning financial accounting procedures for schools. The glossary has been divided into three sections: (I) those terms specifically used in the Revenue Budget; (II) those terms specifically used in the Expenditure Budget; and (III) those terms which are not primarily financial accounting terms but have been included because of their significance for school budgets.

I. REVENUE BUDGET TERMS

Federal Sources: That revenue from funds collected by the Federal Government and distributed to school districts in amounts that differ in proportion from those which were collected within such school districts. Examples of this revenue would be restricted or unrestricted Grants-in-Aid such as funds for Handicapped Children, Disadvantaged Children, Vocational Education, and Child Nutrition Programs.

Fund Balance Appropriations: Monies appropriated from the district's fund balance to offset the shortfall in expected revenues.

Local Sources: That amount of money produced within the boundaries of the school district and available to the School District for its use. Examples of this revenue would be real estate taxes, interest income, rentals and tuition payments.

Other Financing Sources: These include funds received from the proceeds from long term debt, receipt of interfund transfers.

State Sources: That revenue from funds produced within the boundaries of and collected by the state and distributed to school districts in amounts different proportionately from the amounts collected within such school districts. Examples of this revenue would be the basic instructional and operating subsidies, and subsidies for specific educational programs such as Special Education and Vocational Education.
