

Step 1. Type in “software center” in your search feature:

Step 2: Search for “lockdown browser” in the search box
this may take several minutes

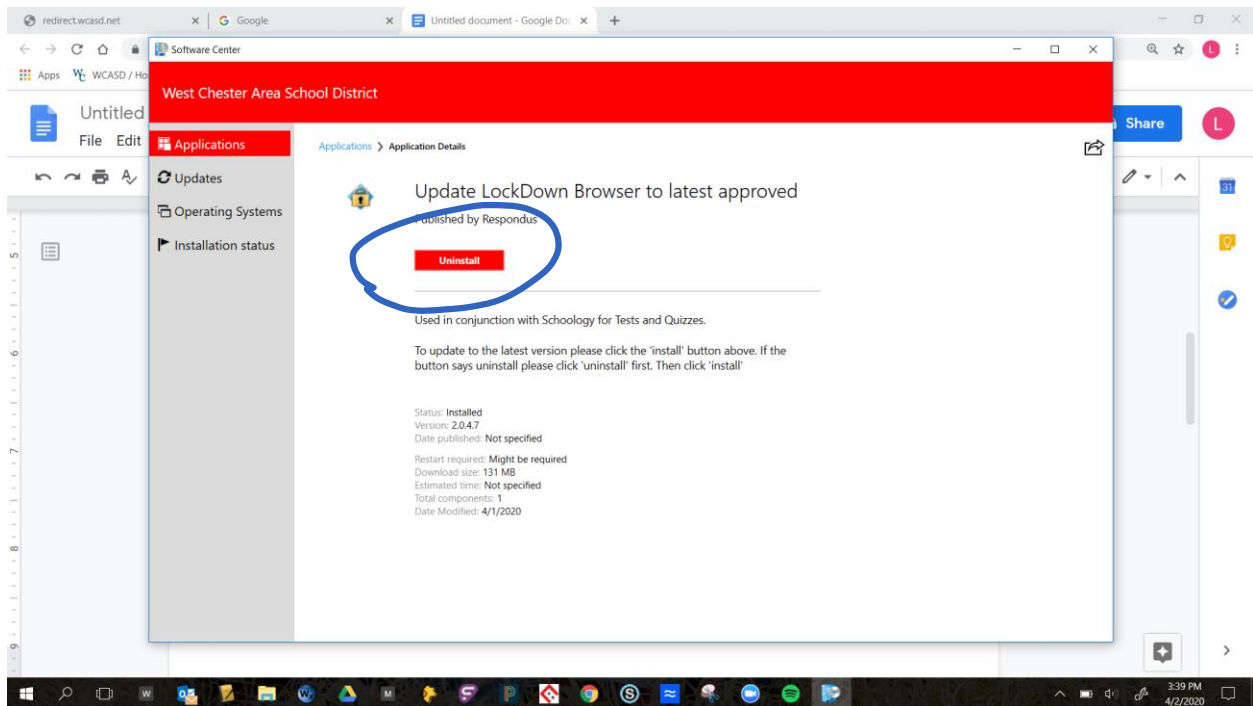

Step 3: Select Either “lockdown browser” or “college board” to install:

Step 4: Select “install”

** you may be prompted to “uninstall” first and then click “install” to get the most updated version on your device.*

Step 5: Once you have installed the software, be sure to RESTART your device. You will be able to use the program once you have followed these steps.
